DETAILED ACTION***Response to Amendment***

The reply filed on 7/12/05 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): Applicant canceled all previously existing claims and added new claims which are drawn to a patentably distinct species of invention. Applicant is entitled to one search for one invention per one application. By canceling the previously examined 55 claims and adding new ones, Applicant is effectively getting a second search for a second invention which is impermissible. Further, Applicant frustrates the prosecution process for the application by simply canceling the existing claims and adding new ones. Moreover, since all current claims are withdrawn as being drawn to a separate species from the originally elected claims, there are no claims actively pending in the case. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).**

Election/Restrictions

Newly submitted claims 74-158 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: such claims constitute a separate and distinct species from that of originally elected claims 1-55.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution

Art Unit: 2813

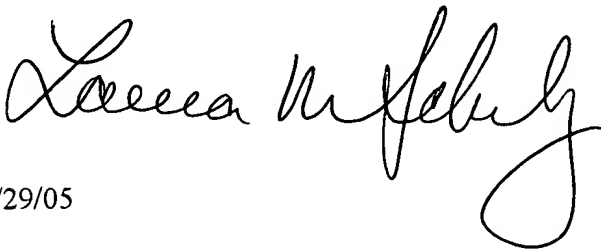

on the merits. Accordingly, claims 74-158 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
